TOP SADDLE PETITE PURSES SKIING JEWELS WATCHES VINYL SOUNDS

Object of Desire

LONG BEFORE THE DAYS of signature purses and kelly bags, Thierry Hermès achieved his mastery of leather by creating the finest harnesses and bridles for the nobleman of the mid-1800s. Now, over 100 years later, his eponymous brand still stays true to its equestrian roots. With over a century's worth of experience and technological innovation, though, Hermès has configured a classic saddle for the modern gentlemen – or lady – replete with the most advanced, light-weight materials to ensure that riding proper doesn't weigh heavy on your horse's shoulders.

FASHIONED from carbon fibres, titanium and polyamide, the Hermès Talaris horseriding saddle is a stunning example of refined innovation. hermes.com
